# CUTE-SAFE

an automated safe for imprest stock and controlled drugs in the hospital environment  
[www.go-robot.com](http://www.go-robot.com)

## Specification

CUTE SAFE robotic system			
manufacturer	GPI, Italy		
implementation (current)	8 years in over 200 hospitals in Italy and Europe, certified		
dimension	height	2.148 mm	
	length	1.596 mm	
	width	885 mm	
weight	500 kg		
safety features	access controlled, fingerprint ID, bolted into ground, steel housing		
power consumption/provision UPS integrated	100-240V ± 10% 50/60 Hz	600 Watt	
capacity	1,500 positions	dynamic with 700 - 1,000 individual items on trays	
loading	4 packs/min		
dispensing	6 packs/min		
software	integration with hospital software		
installation requirements	power, fast Internet

## CUTE-SAFE

A tried-and-tested system (in more than 200 clinics in Europe).

The stand-alone system comes with

- fingerprint ID,
- touchscreen
- standard interface to the dispensing software
- interface to CD dispensing/recording software
- communication interface to the administrator (for one or more depots)

It serves as an automated stock depot for storing and dispensing of imprest stock and controlled drugs and is managed by the central pharmacy. It provides 100% stock control (barcode) and accountability, expiry data management, split pack management, comprehensive reporting, re-stocking order capability, safekeeping of stock, pre-commissioning of orders after hours and 24/7 pick-up via fingerprint ID.
